

Summer Study Guide for AP Chemistry 2021-2022

Welcome to AP Chemistry! Due to the pandemic, our Honor Chemistry did not have time to go over some content covered in the face-to-face class. Therefore, there are some changes in this year's summer assignments. Please send me (yusung.wu@redclay.k12.de.us) an email to confirm that you will take AP Chemistry. I will send out emails during the summer (probably during July) to inform you of the assignments on Schoology.
